DETAILED ACTION

Claim Rejections - 35 USC § 112

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claim 18 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 18 recites the limitation "the biasing means". There is insufficient antecedent basis for this limitation in the claim.

Claim Rejections - 35 USC § 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claims 22, 29 and 52 are rejected under 35 U.S.C. 102(b) as being anticipated by U.S. Patent No. 5,139,291 to Schultz.

Schultz '291 discloses a plastic housing (42; column 3, line 42); a plastic latch bolt (47); a metal actuator connected to the latch bolt (48).

As concerns claims 29 and 52, a plastic housing (42; column 3, line 42) having an outward end opening (figure 3; opening at right end of 42 for 47); a plastic latch bolt (47) having a slot (figure 3; slot in 47 wherein spring 48 resides); a metal actuator connected to the latch bolt (48), the actuator having a post (figure 3; right end portion of 48) received by the slot.

Claim Rejections - 35 USC § 103

5. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

6. Claim 24 is rejected under 35 U.S.C. 103(a) as being unpatentable over U.S. Patent No. 5,139,291 to Schultz.

Schultz '291 does not explicitly disclose the actuator made of zinc. It would have been obvious to one having ordinary skill in the art at the time the invention was made to provide a zinc actuator, since it has been held to be within the general skill of a worker in the art to select a known material on the basis of its suitability for the intended use as a matter of obvious design choice. In re Leshin, 125 USPQ 416.

Allowable Subject Matter

7. The indicated allowability of claims 22, 24, 29 and 52 is withdrawn in view of the reference to U.S. Patent No. 5,139,291 to Schultz. Rejections based on the reference are found above.

8. Claims 1, 2, 5-17, 19-21, 33-35, 37-40, 42-46, 48, 50, 51 and 53-58 are allowed.

9. Claims 23, 25-28 and 30-32 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

10. Claim 18 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, second paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

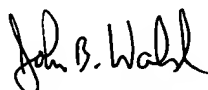

Conclusion

11. The finality of the action is withdrawn in view of U.S. Patent No. 5,139,291 to Schultz cited above.
